

AromaDesign

Stream

ScentAir Stream™ is an invisible, high-performance system, best for large spaces. Advanced diffusion technology releases fragrance through existing HVAC systems. Customizable scheduling and intensity settings make it easy to tailor scent experiences in any environment.

ADVANCED TECHNOLOGY

Patented technology diffuses fragrance in a fine, invisible spray

HVAC CONNECTED

Professional quality fragrance delivered invisibly through existing HVAC systems

FLOOR-TO-CEILING COVERAGE

Blanket coverage for a seamless fragrance experience

ADJUSTABLE SETTINGS

Customizable with adjustable date, time and scent intensity settings

FULL-SERVICE MAINTENANCE

Professional installation and service

COVERS UP TO 750m³

Coverage for large or challenging indoor spaces

Advanced Technology

Releases fragrance in particles 1/50th the size of aerosol

Scalable Scent Solution

A designed solution for complex and large scale areas

Flexible Scheduling

Create custom scent schedules and adjust scent intensity

Scent Stream™
